OBJECTIVE

Seeking a Junior Developer position in a reputable tech company where I can apply my academic knowledge and hands-on project experience. I aim to learn from experienced professionals, contribute to meaningful projects, and continuously improve my technical skills.

TECHNICAL SKILLS

Frontend:

- Html
- Css
- React
- JavaScript

Backend:

- C#
- ASP.NET

Mobile Development:

- .NET MAUI

Database:

- SQL Server
- MongoDB

Networking & IT Support:

- Network setup and basic configuration (LAN, routers, switches)
- Troubleshooting internet connectivity and network issues
- Basic firewall configuration and monitoring
- CCTV monitoring and basic maintenance
- Hardware and software troubleshooting

Tools & Technologies:

- Git
- GitHub / GitLab
- AI driven development(claude, codex)

Other Skills:

- Strong problem-solving and debugging skills
- Technical troubleshooting (software & hardware issues)
- Team collaboration and communication
- Attention to detail and adaptability

EXPERIENCE

- Practical experience through internships, academic projects, or personal coding projects.
- Completing freelance programming projects or gigs to gain practical experience and build a diverse portfolio.
- Collaborated with clients and peers to gather requirements, troubleshoot issues, and improve system functionality.
